

Arrestor Bed - Jubilee Way, Dover

Project details:

To top-up / upgrade 'well used' arrestor beds 6/14mm Lytag[®] lightweight aggregate was used. There are 5 beds in total, of which the first two are on the hill approaching the Dover dockside and ferry port.

The next two are situated on either side of the road approaching the roundabout into the ferry terminal or Dover town. A further bed is placed on the roundabout itself.

The arrestor bed dimensions are;

- 1) – Length 119m Width 3.5m Depth of Lytag[®] 0.5m
- 2) – Length 115m Width 3.5m Depth of Lytag[®] 0.5m
- 3) – Length 55m Width 3.4m Depth of Lytag[®] 0.4m
- 4) – Length 31.5m Width 4.3m Depth of Lytag[®] 0.5m
- 5) – Length 16m Width 3.8m Depth of Lytag[®] 0.5m
